

# Exercise: Lesson (5)

**1) Read and complete the text with words from the box:**

**coin                      heavy                      light                      sinks                      wonder**

Hana:	Hi, Hany. Let's do a science experiment.
Hany:	OK. We can put the solid objects into the liquids. I (1)..... what will happen.
Hana:	We can put the (2).....first.
Hany:	Look! The coin (3).....to the bottom. It goes through the liquids.
Hana:	This is a ping pong ball. This I very (4).....
Hany:	It doesn't go down to the honey. It floats on top of the water.

**2) Read the passage and answer the questions:**

My name is Ali. I'm in primary five. I go to school five times a week. I like science a lot. It's a very interesting subject. Today we're going to do a science experiment! What happens when we pour different liquids into one container? They mix together. Liquids have a different mass. The heavier liquids sink to the bottom. The liquids with a lower mass float on top.

**A) Choose the correct answer:**

1. Ali is in primary.....
 

a) three	b) four	c) five	d) six
----------	---------	---------	--------
2. When we pour different liquids in a container, they.....together.
 

a) drink	b) count	c) sink	d) mix
----------	----------	---------	--------
3. The heavier liquids.....to the bottom.
 

a) fly	b) sink	c) float	d) think
--------	---------	----------	----------

**B) Answer the following questions:**

4. What are they going to do today?  
.....
5. Why does Ali like science a lot?  
.....

**3) Rearrange the following to make sentences:**

1.        experiment – are – do – a science – **We** – going to.  
.....
2.        jars – glass – some – **She** – had – tall.  
.....
