Read the passage and answer the questions:

People kept bees to make honey in ancient Egypt over 4,500 years ago. Honey was **expensive**, but it was an important natural resource. People used it to make food taste sweet. They used it as a medicine, too. If you cut yourself, you could put honey on the cut. People made long, round houses out of clay for the bees. Then they put the clay bee houses, called hives, on top of each other in the shape of a pyramids. Every few months, they moved the hives along the Nile in boats so that the bees could find new flowers.

A) Choose the correct answer:

- The main of the text is the importance of..... .
a) honey b) salt c) paper d) mud
- The underlined adjective "expensive" means..... .
a) high in price b) cheap c) little money d) low

.....

5. Why did they move the hives along the Nile?

.....

Read the passage and answer the questions:

Natural resources are raw materials that we get from nature. Natural resources include soil and wood. We use natural resources to make the things we need. For example we use wood to make tables, stone to build houses and plants for food. The sun is a natural resource because it gives us solar energy to make electricity. Some natural resources like solar energy are renewable. Renewable energy means that we can get more of the resource naturally after we use it.

A) Choose the correct answer:

- The main idea of the text is "....." .
a) Future b) Electricity c) Healthy food d) Natural resources
- Solar energy is..... .
a) non-renewable b) renewable c) nature d) man-made
- We use.....to build houses.
a) plants b) wood c) stone d) sun

B) Answer the following questions:

4. Why is the sun a natural resource?

.....

5. What does "renewable energy" mean?

.....

Choose the correct answer from a, b, c or d:
